Detailing

The inside of Mistral reveals 5 bright yellow blades, reflecting in the brushed reflective inside of the shade.

The intricate diffuser gives a rich and bright light especially in combination with a bright light source.

The top and bottom of the fan blade body are covered with protective metal wire frames preventing any undesired contact with rotating blades.

Cleaning Instructions

Mistral should be cleaned regularly with a dry cloth or feather duster to prevent a build up of dust. For more stubborn stains use a familiar stain remover that does not contain bleach. Please ensure the light is not connected to a mains whilst cleaning is in progress. Always read the label of any cleaning products you wish to use on or near any item from the Moooi collection.

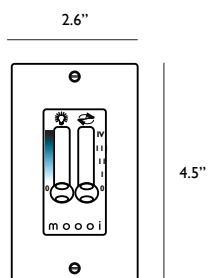

If cleaning of the blades is required, the top and/or bottom frames and shade can be removed. Make sure the fan is not connected to the mains to prevent movement of the blades.

Remove and clean the diffuser with lukewarm soapy water and a soft cloth or sponge. Do not immerse the diffuser in hot water. Do not put the diffuser into an automatic dishwasher.
