

The image shows a close-up of the 'Space Table Lamp' by Ward Wijnant. It features several vertical, cylindrical white pillars. At the top of each pillar is a standard incandescent light bulb. The bulbs are illuminated with different colors: one is bright blue, one is warm white, and one is magenta. The background is dark with a soft, glowing orange and yellow light source, possibly a sunset or sunrise, creating a warm, atmospheric effect. The overall design is minimalist and modern.

PRESS RELEASE

16 APRIL 2020

The Space Table Lamp gets the party started from the safety of your home

In crazy times like this, Moooi continues to bring a life extraordinary. With the Space Table Lamp (designed by Ward Wijnant), we found the perfect companion to brighten up your home during this unconventional time. The Space Table Lamp is a lighting design that keeps quiet during the day, whilst bringing the party to your interior at night. All from the safety and pleasure of your own home. Wijnant's design can be described as curious, material-led and contemporary, it sparkles and makes you wonder. He translates these elements in his first design for Moooi: the Space Table Lamp

UNIQUE DESIGNER

"When you feel the need to connect and have some fun in the safety of your own house, the Space Table Lamp is here for you. It brightens up your interior and kickstarts any party with its mirroring surface and disco lights inside", Robin Bevers, CEO Moooi. "Ward inspires us with his fresh outlook and curiosity, which he effortlessly translates into vivid and contemporary design. We welcome Ward Wijnant to our Moooi Family. Every designer is unique, and it is this variety we love so much when we start a new collaboration".

EXTRAORDINARY EXPERIENCE

"I wish for a material to go beyond being a material. I want the beauty to come out in a design, bringing it to life! That's what being a designer is all about. To work together with Moooi and bring one of my designs to life is an extraordinary experience and I can't wait for the world to see the Space Table", Ward Wijnant, designer.

SPACE TABLE LAMP

The Space Table Lamp sits quietly, mirroring its surroundings with ease. It takes you to a parallel universe and reveals a space you never knew existed. The Space Table Lamp enlarges its environment by mirroring and morphing everything close to it. Pay attention when its silver surface becomes translucent and a new world appears from inside the mirror. The Space Table Lamp brings material and technique together in an unconventional way. It looks slender, but it has great volume when you switch it on, creating almost a mystery as you wonder how this is done. It is characteristic for Wijnant's designs to leave people intrigued and amazed. A reaction that demonstrates people perceive The Space Table Lamp as a design more than 'just an object'.

DIM-TO-DISCO BY MOOOI

The Space Table Lamp holds a secret that comes a life at night. As soon as it's dark and the sky is only lit by stars, that's when the Space Table Lamp lifts the room and shines even brighter. This extraordinary feature is called: Dim-to-Disco. With this innovation the Space Table Lamp brings disco fever to any home. Just flip the Dim-to-Disco switch and the Space Table Lamp gets you movin' and grooving, wherever you are!
